DIXON news

Dixon Golf Signs Mat Vilade

Dixon Golf has signed longdrive champion Mat Vilade to endorse the Wind ball. He's been a professional longdriver since 2006 and is a four-time RE/MAX World Long Drive Championship finalist, owning the longest drive ever hit at RE/MAX World Championship Grid, 473 yards. He's done all this while overcoming Chron's Disease.

See his new [Professional Staff](#) page

Dixon Golf Sponsored 579 Charity Tournaments in the 3rd Quarter

Dixon Golf's wildly successful Dixon Challenge sponsored 579 charity golf tournaments in the period from June 1-September 30, 2011. The Challenge, a fun Par-3 game run by the Dixon Vixons, helps charities increase on-course revenue while getting our golf balls on players' tees.

Dixon Golf Collects More Golf Balls To Recycle

Dixon Golf was at the I Recycle Phoenix event last weekend to collect golf balls to be recycled. We collected 620 golf balls that will not be going in landfills or into the environment. This was the first year of the I Recycle Phoenix event, and items collected included electronics, clothing, paper shredding and large batteries. The event was held at Phoenix Municipal Stadium. Visit phoenixrecycles.org

Team Dixon Expands

Dixon Golf had expanded to include four golf teams, two collegiate and two high school teams. We'll help these teams raise money through their sales of our golf balls. The teams also use our golf balls exclusively in both practice and tournament play. You can check out their page on our site under the Team Dixon tab or select either [College](#) or [High School](#) Programs.

youtube.com/chrisfrygolf.com

Torque Your Backswing for MORE POWER! by Chris Fry, PGA

Using your body effectively can give you **more distance, straighter shots and relieve pain.**

STEP 1

Weight placement on your feet during the golf swing is imperative in allowing a proper turn. Proper weight placement means keeping the weight from moving outside your feet, side to side or too much to the heels or toes.

STEP 2

From a solid setup, pivot the right hip and right shoulder back. DO NOT let the back leg bow outside the red line. The green line shows a great rotation and pivot.

STEP 3

At the top, your back hip (yellow circles) should be inside your back foot as you see in the green drawing. An improper sway is demonstrated with the red line.

STEP 4

A correct pivot on the backswing will dramatically change your top position. Left image is old with a sway, and right side is a rotation/pivot. The chest has now rotated more, arms are extended more and everything has found the plane. From here, unwind and watch the ball soar...

DATE	TOURNAMENT NAME	BENEFITTING CHARITY	DATE	TOURNAMENT NAME	BENEFITTING CHARITY
